Professional Summary
Senior Full Stack Engineer with 5+ years of experience building scalable web architectures and REST APIs. Expert in Python, FastAPI, React, PostgreSQL, and Docker containerization. Proven track record deploying microservices to AWS cloud environments.

Technical Skills
? Languages: Python, JavaScript, TypeScript, SQL, Bash
? Frameworks: FastAPI, Django, React, Next.js, Node.js
? Databases: PostgreSQL, Redis, MongoDB
? Cloud & DevOps: Docker, AWS (EC2, S3), CI/CD, Git, GitHub Actions

Work Experience
Senior Full Stack Developer | Apex Cloud Technologies
2021 - Present (3 years)
? Architected high-throughput REST APIs using Python and FastAPI serving 500k daily requests.
? Developed interactive responsive user dashboards in React and Tailwind CSS.
? Designed and optimized PostgreSQL relational database schemas, reducing query latency by 42%.
? Containerized backend microservices using Docker and orchestrated automated CI/CD pipelines.

Software Engineer | BitWave Solutions
2019 - 2021 (2 years)
? Built core web services in Python and Django with PostgreSQL database integration.
? Implemented client-side features in React and collaborated closely with product managers.

Education
Bachelor of Science in Computer Science
University of California, Berkeley (2015 - 2019)

Certifications
AWS Certified Solutions Architect Associate
